John:

Attached is a transcript of Mr. Colby's address yesterday. Would you please give this a quick review for substance and make any changes necessary from a substantive point of view. Concurrently with your review, I have asked Ed Proctor to edit the report from a grammatical point of view.

As you can appreciate, there is interest in having the Director's address in final form as soon as possible. (Incidentally, I am giving the Director a copy of the rough report.)

Thank you.

John F. Blake
